DUBLIN CASTLE,  
3rd January, 1921.

SIR,

I have to acknowledge the receipt of your letter of the 3rd inst., forwarding for submission to His Excellency the Lord Lieutenant, the report on the Trade in Imports and Exports at Irish Ports for the year ended 31st December, 1919.

I am,

Sir,

Your obedient servant,

C. M. MARTIN JONES.

The Secretary,  
Department of Agriculture, &c.,  
Dublin.

REPORT ON THE TRADE  
IN  
**IMPORTS AND EXPORTS AT IRISH PORTS**  
DURING THE YEAR 1919.

---

TO THE SECRETARY OF THE DEPARTMENT OF AGRICULTURE AND  
TECHNICAL INSTRUCTION FOR IRELAND.

SIR,

I have the honour to submit the Report on the Trade in Imports and Exports at Irish Ports during the year ended 31st. December, 1919.

The inadequacy of the present system of voluntary returns upon which these Reports are based has been fully dealt with in previous Reports. The inadequacy has been all the more marked since the outbreak of war. In this connection it should be mentioned that under the Defence of the Realm Act the Food Controller made "The Irish Returns Order, 1918," which came into force on the 9th November, 1918, requiring all owners of vessels engaged in the Cross-Channel trade between Ireland and Great Britain to furnish compulsory returns of the quantities of certain specified articles shipped or unshipped at Irish Ports to or from Ports in Great Britain and the Isle of Man. Returns are required in respect of 45 articles imported and 43 articles exported. These compulsory returns are very much more satisfactory than the voluntary returns; they are received daily, and are up-to-date, and the commodities are described in a precise manner.

In the tables and figures herewith submitted, as explained in previous Reports, Irish imports and exports mean all goods imported or exported by Ireland, whether from or to Great Britain, the Colonies, or foreign countries—the terms including not only the colonial and foreign trade, but also the Cross-Channel trade between Great Britain and Ireland.

From the year 1904, the first year for which records of Irish trade are available, up to the beginning of the war, there was a gradual increase in the prices of Irish imports and exports; from

the beginning of the war the rise in prices became immensely greater. Accordingly, in order to eliminate the effect of the change in prices, and to give an indication of the change in the total quantities imported into and exported from Ireland, the values of imports and exports shown in the following table are estimated, not only at the prices in the year of actual shipment, but also at the corresponding prices in 1904.

TOTAL IRISH IMPORT AND EXPORT TRADE.\*  
(Values expressed to the nearest thousand pounds).

| Year.    | IMPORTS.  |                             | EXPORTS.  |                             | EXCESS OF IMPORTS<br>OVER EXPORTS.                     |                             |

† Value of exports greater than value of imports.

#### CHANGES IN THE VOLUME OF IRISH IMPORTS AND EXPORTS.

It will be seen from the above table that although the total values of imports and exports measured at war prices increased enormously in the last few years the actual quantities imported and exported (as indicated by the values at 1904 prices) are much below the pre-war levels.

The volume of the import trade (measured at 1904 prices) which increased from £55,345,000 in 1904 to £62,986,000 in 1913 fell to £44,167,000 in 1918, but rose to £50,081,000 in 1919.

\* Some of the figures for 1918 and for previous years which appear in this Report are slightly different from those published in previous Reports, but the revisions are few and unimportant.

The value of the export trade (measured at 1904 prices) which increased from £49,815,000 in 1904 to £56,966,000 in 1910 remained at much the same level in 1911 and 1912 (in which years exports of cattle were abnormally low owing to the lack of keep in Great Britain in the very hot summer of 1911 and to shipping restrictions in 1912 on account of Foot and Mouth Disease). The volume of exports rose abruptly in 1913 and 1914 chiefly owing to abnormal exports of cattle in both years (in 1913 owing to the glut after the restrictions of 1912, and in 1914 owing to the extremely heavy demand in Great Britain in the first five war months). The exports in 1913 and 1914 were accordingly abnormally high. Most of the decline in the volume of export trade which can be attributed to the war took place in the year 1918. The exports at 1904 prices fell from £58,372,000 in 1915 to £50,569,000 in 1918, but rose to £51,175,000 in 1919.

#### CHANGES IN THE PRICES OF IRISH IMPORTS AND EXPORTS.

The imports in 1919 when valued at 1904 prices amounted to only £50,981,000, whereas when valued at 1919 prices they amounted to £158,716,000; accordingly the general level of prices of the commodities imported in 1919 increased from 1904 to 1919 by 216.9 per cent. Similarly the general level of prices of the commodities imported in 1918 increased from 1904 to 1918 by 185.3 per cent. In this manner the following table has been constructed, but when analysing the figures it should be carefully borne in mind that the relative importance attached to the price of a particular commodity (*e.g.* eggs) in a particular year (*e.g.* 1918) depends on the quantity shipped in that year, and accordingly the "weighting" of commodities varies from year to year.

#### INCREASES IN PRICES OF IMPORTS AND EXPORTS.

| Prices of Commodities Shipped in           | Imports.  | Exports.  |
|--|-----------|-----------|
|  | Per cent. | Per cent. |
| 1905 increased from 1904 to 1905 by        | 0.2*      | 1.1       |
| 1906                   "           1906 by | 2.2       | 4.8       |
| 1907                   "           1907 by | 6.7       | 8.6       |
| 1908                   "           1908 by | 5.9       | 6.9       |
| 1909                   "           1909 by | 9.5       | 11.3      |
| 1910                   "           1910 by | 11.4      | 15.7      |
| 1911                   "           1911 by | 12.1      | 15.5      |
| 1912                   "           1912 by | 17.0      | 18.4      |
| 1913                   "           1913 by | 18.2      | 21.8      |
| 1914                   "           1914 by | 21.2      | 22.2      |
| 1915                   "           1915 by | 47.6      | 44.7      |
| 1916                   "           1916 by | 84.6      | 82.5      |
| 1917                   "           1917 by | 139.4     | 135.9     |
| 1918                   "           1918 by | 185.3     | 202.4     |
| 1919                   "           1919 by | 216.9     | 244.0     |

\* Decrease.

It will be seen that the prices of exports rose more than the prices of imports from 1904 to 1914; the prices of imports had increased somewhat more than exports in 1915, 1916 and 1917, but in 1918 and 1919 the increase from 1904 in the prices of exports was greater than in the prices of imports. The prices of exports in 1919 showed an increase of 244.0 per cent. over 1904, while the prices of imports showed an increase of 216.9 per cent.

#### FAVOURABLE CHANGE IN THE BALANCE OF TRADE.

The serious fall from the pre-war levels in the volume of imports and exports has some favourable aspects :—

- (1) The decrease in imports was made good to some extent by increased Irish production. For instance, the effect of the large decrease in the imports of maize and other feeding stuffs was largely counterbalanced by increased production of Irish substitutes (oats, etc.), and the decrease of the imports of flax was to some extent made good by increased home production. The decrease in imports of bacon, butter, etc., resulted in a larger consumption and smaller export of the Irish articles. In other directions, however, Irish substitutes were not available and the decreased importation (*e.g.* sugar) led to a fully equivalent decrease in consumption.
- (2) From 1915 to 1919, while the volume of imports fell by 15.3 per cent., the volume of exports fell only 12 per cent. In each year from 1904 to 1913 the volume of the imports (measured at 1904 prices) exceeded the exports, but in 1914, 1916, 1917, 1918 and 1919 the volume of the exports was greater than the imports. Whereas in 1904 the volume of the imports exceeded the export by 11.1 per cent., in 1919 the exports (measured at 1904 prices) exceeded the imports by 2.2 per cent.
- (3) While from 1904 to 1919 the prices of the commodities imported in 1919 increased by 216.9 per cent., the prices of the exports increased by 244.0 per cent.

The combined effect of the changes (2) and (3) has been to bring about a considerable change in the balance of trade. While the total value of the imports in 1904 exceeded the total value of the exports in that year by £5,530,000 or 11.1 per cent., the total value of the exports in 1919 (at 1919 prices) exceeded the value of the imports by £17,316,000, or 10.9 per cent.

The following tables give a somewhat more definite idea of the changes which have taken place in Irish trade from 1917 to 1919. The values are expressed to the nearest thousand pounds :—

|                                  | VALUE AT PRICES IN THE<br>YEAR OF SHEPHERY. |            |            | VALUE AT 1904 PRICES. |            |            |
|----------------------------------|---|------------|------------|-----------------------|------------|------------|

| Exports ..                       | 56,703                                      | 60,308     | 75,545     | 23,012                | 20,178     | 17,028     |
| Imports minus Exports            | 332   | 590        | 3,492      | 1,643                 | 4,041      | 5,865      |
| Total Imports ..                 | 119,181                                     | 126,016    | 158,716    | 49,785                | 44,107     | 50,081     |
| Total Exports ..                 | 133,805                                     | 152,931    | 176,032    | 56,715                | 50,669     | 51,175     |
| Exports minus Imports            | 14,624                                      | 26,915     | 17,316     | 6,930                 | 6,402      | 1,094      |

Reading across the first three columns of the above table it will be observed that the value of both the imports and of the exports of each of the three groups of commodities increased from 1917 to 1918 and from 1918 to 1919, with the single exception of the imports of Farm Produce, Food and Drink, which decreased in value from 1917 to 1918. On the other hand, reading across the last three columns it will be seen that the volume of both the imports and the exports of each of the three groups decreased from 1917 to 1918, but from 1918 to 1919 while the volume of imports and exports in raw materials remained much the same, and a further decline took place in the volume of trade in manufactured goods, there was a very considerable increase in the volume of both the import and export trade of Farm Produce, Food and Drink.

In tables presented later it will be seen that in each year from 1904 to 1919 the value of the imports of Farm Produce, Food and Drink, was less than the value of the exports, that the value of the imports of raw materials, was greater than the value of the exports, and that the value of the imports of manufactured goods, with the exception of the year 1917, was greater than the value of the exports.

The following table shows the relative importance of the trade in each of the above three groups of commodities ; the value of the

trade in each group is expressed as a percentage of the total value of imports and exports respectively :—

|                                 | VALUED AT PRICES IN THE YEAR OF SHIPMENT. |           |           | VALUED AT 1904 PRICES. |           |           |

| Manufactured Goods              | 42  | 45        | 43        | 41                     | 40        | 33        |
| Total ..                        | 100                                       | 100       | 100       | 100                    | 100       | 100       |

The value of Farm Produce, Food and Drink Stuff, imported accounted for only 27 per cent. of the total imports in 1918, but for 35 per cent. of the total imports in 1919. The exports of this group accounted for 51 per cent. of the total exports in 1918, and for 53 per cent. in 1919.

The value of the imports of manufactured goods made up 56 per cent. of the total imports in 1918, but only 50 per cent. in 1919 ; the value of the exports of this group accounted for 45 per cent. of the total exports in 1918, and for 43 per cent. in 1919.

### I.—FARM PRODUCE, FOOD AND DRINK.

In the following table, which shows the total Irish trade in this group of commodities, the values are expressed to the nearest thousand pounds.

When scrutinising the figures it should be borne in mind that the abnormally large exports in 1913 and 1914 were not due either to increased production or decreased consumption in Ireland. They were occasioned in both years by exceptionally heavy shipments of cattle which, in the ordinary course, would have been exported in other years. Many of the cattle exported in 1913 would have been shipped in 1912 but for the restrictions on exports in that year on account of foot and mouth disease. Exceptionally large numbers of cattle were exported in the war months of 1914 which, in normal times, would not have been exported until 1915.

| 1916 ... | 39,050   | 62,577     | 23,527                                      | 21,022                              | 34,080     | 13,058                                      |
| 1917 ... | 41,419   | 71,801     | 30,382                                      | 17,101                              | 31,187     | 14,086                                      |
| 1918 ... | 34,429   | 78,254     | 43,825                                      | 13,285                              | 28,342     | 15,057                                      |
| 1919 ... | 55,245   | 93,709     | 38,464                                      | 20,222                              | 32,103     | 11,881                                      |

The above table shows that the value of the exports of Farm Produce, Food and Drink, was greater than the value of the imports in each year from 1904 to 1919. The value of imports, measured at 1904 prices, rose to a maximum in 1914; this value amounted to £22,997,000. This fell to £13,285,000 in 1918, a decrease of 42 per cent., while in 1919 it rose again to £20,222,000, a decrease on 1914 of 12 per cent., but an increase on 1918 of 52 per cent. The volume of exports as well as the volume of imports were at their lowest in 1918; the volume of exports (measured at 1904 prices) increased from 1918 to 1919 by 13 per cent. The prices of imports in 1919 of this group increased from 1904 to 1919 by 173 per cent.; the prices of exports in 1919 increased from 1904 to 1919 by 192 per cent. The following table indicates the changes in volume from 1917 to 1919 in some detail:—

## FARM PRODUCE, FOOD AND DRINK, AT 1904 PRICES.

|   | Imports.                   |                            |                            | Exports.                   |                            |                            |

*Live Stock.*—The decrease in exports in 1918 and the recovery in 1919 was principally due to abnormally low shipments of cattle in 1918, the number exported for the year being only 720,112.

*Dead Meat.*—The pre-war average import of bacon and hams was well maintained up to the year 1916, when it amounted to 43,408 tons, but fell to 33,799 tons in 1917, and to 11,438 tons in 1918, increasing again to 18,528 tons in 1919. The export of bacon and hams in the years 1909-13 averaged about 55,000 tons; this fell to 48,372 tons in 1917, and to 20,571 tons in 1918, but increased to 25,944 tons in 1919. Part of the decrease in the exports in the last three years as compared with pre-war years was due to the increased consumption of the Irish product in Ireland, but much of the decrease was due to the serious falling off in production; the number of pigs in Ireland fell after the very bad potato season of 1916 from 1,290,289 on 1st June, 1916, to 947,472 in 1917, with only a slight recovery to 974,385 in 1918, and to 977,963 in 1919.

*Eggs, Butter, etc.*—Exports of butter fell from a maximum of 42,780 tons in 1914, to 33,767 tons in 1917, to 22,796 tons in 1918, and to 17,336 tons in 1919, a quantity less than half the pre-war average; exports of margarine which reached the pre-war maximum of 3,659 tons in 1911 increased rapidly during the war period and amounted in 1917 to 12,219 tons, falling again in 1918 to 6,318 tons, but increasing to 6,623 tons in 1919; exports of cheese, which only amounted in 1912 to 513 tons, the highest pre-war figure, increased to 904 tons in 1917, to 6,823 tons in 1918, and to 14,296 tons in 1919; this increase in cheese exports compensated to a considerable extent for the decline in butter exports. The export of eggs which averaged slightly less than 6,500,000 Great Hundreds in the period 1909-13, increased to 7,265,041 Great Hundreds in 1917, to 8,769,698 Great Hundreds in 1918, and to 9,150,491 Great Hundreds in 1919; exports of poultry which averaged about 15,000 tons in pre-war years fell to 13,178 tons in 1917, but increased to 14,731 tons in 1918, and to 14,956 tons in 1919.

*Fish.*—There was a slight increase in the imports in 1919 as compared with 1918, but exports again declined.

*Fruit and Vegetables.*—The imports of fruit of all kinds which reached a maximum of 42,113 tons in 1913, decreased to 16,066 tons in 1917, to 6,553 tons in 1918, but increased to 33,802 tons in 1919; exports of fruit fluctuated very much even in pre-war years, when a maximum of 6,294 tons was reached in 1910; they amounted to 5,397 tons in 1917, to 12,533 tons in 1918, and to 13,632 tons in 1919 a figure more than double the highest pre-war record. The export of potatoes which in 1914 amounted to 187,922 tons, a record figure at that time, fell to 108,958 tons in 1917, but increased to 343,099 tons in 1918, a figure almost three times the pre-war average, but decreased slightly in 1919 to 301,271 tons.

*Grains, etc., and Feeding Stuffs.*—The imports of wheat which averaged about 400,000 tons in the years 1909-13, fell to 310,325 tons in 1917, to 259,676 tons in 1918, but increased to 412,460 tons in 1919; wheat flour imports on the other hand showed an increase from a pre-war record of 279,811 tons in 1905, to 280,362 tons in 1918, and to 311,346 tons in 1919, the highest figure ever recorded. The imports of barley which reached a maximum pre-war figure of 76,086 tons in 1913, fell to 70,611 tons in 1917, to 53,773 tons in 1918, but increased to 100,755 tons in 1919, the highest figure ever recorded. Imports of malt which averaged about 40,000 tons in normal years and reached a maximum of 60,847 tons in 1914, fell to 12,219 tons in 1917, to 1,809 tons in 1918, but increased to 6,021 tons in 1919. The imports of rye, which amounted in 1905 to 23,196 tons, a pre-war maximum, increased to 28,941 tons in 1917, but fell to 25,517 tons in 1918, and to 19,687 tons in 1919, the latter figure being roughly equivalent to the pre-war average. The imports of maize decreased from a pre-war average of 600,000 to 700,000 tons to 371,187 tons in 1917, and to 107,747 tons in 1918, but increased to 229,235 tons in 1919. Imports of rice which reached a pre-war record of 4,475 tons in 1913, increased to 11,872 tons in 1918, but fell again to 4,085 tons in 1919. Imports of bran and pollard decreased from an average of about 60,000 tons in the years 1909-13 to 45,265 tons in 1917, to 2,074 tons in 1918, but increased to 17,651 tons in 1919. The imports of oilcake decreased from a pre-war level of about 60,000 tons to 38,299 tons in 1917, and to 20,794 tons in 1918, but rose to 47,596 tons in 1919. The export of oats amounted in 1916 to 102,281 tons, decreased to 69,322 tons in 1917, rose to 83,848 tons in 1918, and to 162,955 tons in 1919, or more than twice the pre-war average. The exports of hay and straw which reached the high maximum of 80,380 tons in 1917 fell to 42,171 tons in 1919, a quantity which, however, was far above the pre-war average.

*Tea, Coffee, etc.*—The imports of tea which in normal years averaged about 33,000,000 lbs., amounted in 1917 to 33,410,832 lbs., to 36,231,104 lbs. in 1918, and to the abnormal figure of 55,624,688 lbs. in 1919; imports of cocoa, which reached a record of 7,434,224 lbs. in 1915, decreased to 4,829,664 lbs. in 1917, but increased again to 6,154,960 lbs. in 1918, and to 6,818,336 lbs. in 1919, the latter figure being very much greater than the average pre-war import; imports of sugar which, in 1909 amounted to 142,892 tons fell to 83,301 tons in 1917, to 74,128 tons in 1918, but increased to 111,310 tons in 1919.

*Tobacco and Snuff.*—Imports of unmanufactured tobacco, which averaged about 13,000,000 lbs., in the period 1909-13, decreased to 4,466,198 lbs. in 1917, increased again to 11,391,669 lbs. in 1918, and to the abnormal figure of 29,360,240 lbs. in 1919. Imports of manufactured tobacco increased steadily in the years before the war, amounting in 1913 to 4,687,116 lbs., increased to

5,349,960 lbs. in 1917, fell to 3,957,660 lbs. in 1918, and increased again to 6,169,128 lbs. in 1919, a record figure. The exports of manufactured tobacco which averaged less than 8,000,000 lbs. in the period 1909-13 reached a record of 8,922,810 lbs. in 1915, fell to 8,600,939 in 1917, to 7,670,169 in 1918, but increased to 8,420,916 lbs. in 1919.

*Spirits, Beer, Wine, etc.*—The imports of foreign spirits which averaged about 500,000 proof gallons in the five years 1909-13 reached a record figure of 770,101 proof gallons in 1916, fell to 612,022 proof gallons in 1917, to 220,688 proof gallons in 1918, but increased to 718,025 proof gallons in 1919. The exports of home-made spirits fell from a pre-war average of about 7,500,000 proof gallons to 2,625,826 proof gallons in 1917; this increased to 3,120,171 proof gallons in 1918, and to 7,029,721 proof gallons in 1919. The exports of industrial spirits rose from 1,159,903 proof gallons in 1915, to 11,152,112 proof gallons in 1917, but decreased to 8,646,690 proof gallons in 1918, and to 1,718,101 proof gallons in 1919. The transition from the manufacture of potable spirits to industrial spirits and vice versa of course affected the figures representing exports of "Farm Produce, Food, and Drink." The imports of ale and beer fell from a pre-war average of about 170,000 barrels to 70,837 barrels in 1917, and to 49,603 barrels in 1918, but increased to 60,084 barrels in 1919—a quantity only about one-third of the pre-war imports. The imports of wine averaged about 1,400,000 gallons before the war, but fell to 749,470 gallons in 1917, increased to 850,525 gallons in 1918, and to 2,524,094 gallons in 1919, a quantity nearly double the pre-war imports. The exports of aerated and mineral waters dropped from a pre-war average of about 300,000 cwts. to 158,260 cwts. in 1917, and to 116,971 cwts. in 1918, but rose to 136,461 cwts. in 1919, *i.e.*, to less than half the pre-war exports.

An idea of the importance to Great Britain of the Irish exports of Farm Produce, Food and Drink, will be obtained from the following table, which, in addition to showing the estimated values of the Irish exports, also gives the values of the imports into the United Kingdom of this group from the principal Foreign Countries and British Possessions. The values are expressed to the nearest thousand pounds.

FARM PRODUCE, FOOD AND DRINK.

|                                       | 1914.     | 1915.     | 1916.     | 1917.     | 1918.     | 1919.     |

When considering the above table it should be remembered that the exports from Ireland are valued free on board ship at the Irish ports and do not include insurance or freight, whereas the cost of insurance and freight are included in the values of exports shown for the other countries.

The above figures contrast the total exports from Ireland with the total imports of farm produce, food and drink stuffs from the principal countries of supply into the United Kingdom (not into Great Britain). Official figures are not available, but fairly accurate estimates can be made, which would give a direct comparison between Ireland and other countries as suppliers to Great Britain of this group of commodities. To make the comparison exact, the figures for Ireland should be reduced by the values of the Irish produce consumed abroad, and the figures for other countries should be reduced by the values of the goods consumed in Ireland which are included in the totals for the United Kingdom. The deductions would be comparatively small, and the figures shown in the last table, and in the following paragraphs, indicate with sufficient accuracy the importance of the part played by Ireland as a supplier of food stuffs to Great Britain.

Attention is directed to the tables in Appendix I. of this Report which show for the year 1919 the quantities and values of each of the chief articles of agricultural produce imported into the United Kingdom from foreign Countries and British Possessions and the corresponding exports from Ireland. The following are some of the more important facts disclosed by the Appendix.

The value of *Cattle* and *Beef* exported from Ireland to Great Britain in 1919 was £27,468,000 and exceeded in value the imports from other countries except Argentina, valued at £27,796,000. The imports from Uruguay amounted to £6,874,000 and from the United States of America to £6,548,000.

The Irish export of *Sheep* and *Mutton*, valued in 1919 at £2,145,000 was the fourth greatest, being exceeded by the imports from New Zealand, £8,644,000, Argentina, £4,978,000, and Australia, £4,004,000.

As regards the total value of *Bacon*, *hams*, *pork*, and *live pigs*, Ireland came third on the list with a value amounting to £7,631,000 as compared with £67,629,000 from the United States of America, and £19,534,000 from Canada.

The export of *Poultry* from Ireland was much greater than that from any other country to the United Kingdom, Ireland exporting to Great Britain poultry to the value of £2,757,000, while the largest value of imports from other countries to the United Kingdom was from the United States, £1,044,000.

The Irish export of *Butter*, 347,000 cwts., valued at £4,902,000, was the second greatest in quantity and value; the export from

Australia to the United Kingdom amounted to 417,000 cwts., valued at £5,251,000; that from New Zealand came third, value £3,910,000.

The Irish export of *Eggs* far exceeded, both as regards quantity and value, the imports from any other country, amounting to 9,150,000 gt. hunds., valued at £15,480,000; the imports into the United Kingdom from Denmark being the next largest in quantity amounting to 1,638,000 gt. hunds., valued at £2,776,000. The import. from Canada were 1,477,000 gt. hunds., valued at £2,230,000.

The Irish export of *Potatoes*, which amounted to 301,271 tons, valued at £2,260,000, was larger than the import of potatoes into Great Britain from any other country. The quantity imported from the Channel Islands though amounting to only 37,248 tons, was valued at £1,327,000, as their trade is chiefly in early potatoes.

As regards *Oats*, the export from Ireland (3,241,000 cwts.), was greater than the imports from any other country, the United States (2,956,000 cwts.), came next, and Argentina (2,070,000 cwts.) third.

## II.—RAW MATERIALS.

In the following table which shows the total Irish trade in this group of commodities the values are expressed to the nearest thousand pounds.

IRISH TRADE IN RAW MATERIALS.

| Year     | VALUES ESTIMATED AT PRICES<br>IN YEAR OF SHIPMENT. |            |   | VALUES ESTIMATED AT 1904<br>PRICES. |            |   |

The value of the imports of raw materials was considerably in excess of the exports in each year from 1904 to 1919. The raw materials imported in 1919 increased in price from 1904 to 1919 by 251 per cent., the raw materials exported in 1919 increased in price from 1904 to 1919 by 232 per cent.

The volume of imports measured at 1904 prices decreased from 1917 to 1919 by 13 per cent., and of the exports by 19 per cent.

The following table gives some details of the changes in this interval:—

RAW MATERIALS AT 1904 PRICES.

|   | IMPORTS.                   |                            |                            | EXPORTS.                   |                            |                            |

*Wood, Hewn and Sawn.*—The imports of “timber” had decreased from an average of about 85,000 loads in the three years, 1911, 1912, and 1913, to 13,836 loads in 1917. It increased to 20,787 loads in 1918, and to 51,273 loads in 1919. The exports of “rough timber,” during the war were much the same as before the war. They increased from 121,637 loads in 1917 to 137,922 loads in 1918, but decreased to 92,446 loads in 1919. The exports of “pitwood” during the war were above the pre-war average. They increased from 28,904 loads in 1917 to 47,004 loads in 1918, but decreased to 17,237 loads in 1919. The imports of boards and deals had decreased from a pre-war average of over 200,000 loads to 38,926 loads in 1917. This increased to 51,122 loads in 1918 and to 116,606 loads in 1919. The imports of corks and corkwood in 1917 was 1,780 loads. This was above the average for years prior to 1912, but below the imports in each year from 1912 to 1916 inclusive. It increased to 3,814 loads in 1918 and to 3,864 loads in 1919, the highest import ever recorded.

*Stones, Ores, etc.*—The imports of slates, which were over 28,000 tons in 1911 and 1912 had fallen to 12,372 tons in 1917, but increased to 20,032 tons in 1918 and fell to 13,310 tons in 1919. Imports of sulphur ore which before the war averaged over 40,000 tons, and in the period 1914 to 1918 over 60,000 tons annually fell to 30,931 tons in 1919. Imports of salt during and after the war were much the same as before the war. The quantity imported in 1917 was 32,903 tons. This increased to 39,457 tons in 1918, but fell to 31,523 tons in 1919. The imports of pitch which in the period 1910 to 1913 amounted to an annual average of about 200,000 cwts. fell very considerably during the war period, being 150,156 cwts. in 1917, falling again in 1918 to 114,081 cwts., and to 90,719 cwts. in 1919. The exports of pitch which in pre-war years amounted to over 100,000 cwts., dropped to 5,256 cwts. in 1917, increased in 1918 to 50,169 cwts., but fell again in 1919 to 24,385 cwts. The imports of tar which were 57,954 cwts. in 1917, fell to 21,111 cwts. in 1918 but increased again to 49,903 cwts. in 1919. Exports of limestone, which in pre-war years averaged 125,000 tons fell to 43,308 tons in 1917 to 35,766 tons in 1918 but increased in 1919 to 41,445 tons. The exports of marble, granite, etc., which in pre-war years averaged 14,000 tons fell to 5,146 tons in 1917, to 2,051 tons in 1918, and to 775 tons in 1919. The exports of burnt ore, which amounted to 29,888 tons in 1917, or much the same as the pre-war level, increased to 45,328 tons in 1918, but fell again in 1919 to 27,728 tons.

*Fats.*—The imports of oleo, which were 145,610 cwts. in 1917 compared with an average of 14,000 cwts. in the five years 1909-13, increased to 189,659 cwts. in 1918, but fell again to 128,501 cwts. in 1919. The imports of lard which had dropped to an average of about 50,000 cwts. in the three years preceding the war increased to 97,937 cwts in 1917, fell to 52,801 cwts. in 1918, but rose again in 1919 to 64,517 cwts. The exports of lard which were as high as 162,310 cwts. in 1909 had fallen to 94,583 cwts. in 1914, decreased in 1917 to 53,459 cwts., to 19,232 cwts. in 1918, but rose again to 55,351 cwts. in 1919. The imports of tallow, which were 59,905 cwts. in 1917, a much higher figure than in any previous year, fell to 13,991 cwts. in 1918, but increased in 1919 to 20,595 cwts. The exports of grease in the years immediately prior to the war averaged about 70,000 cwts. annually but fell to 50,286 cwts. in 1917, to 31,989 cwts. in 1918, and to 30,393 cwts. in 1919.

*Hides, Wool, etc.*—The export of wool was 14,597,856 lbs. in 1917, about equivalent to the pre-war average, this decreased to 12,974,752 lbs. in 1918, and to 11,595,808 lbs. in 1919. The imports of wool which reached a maximum of 5,475,456 lbs. in 1915 had decreased in 1917 to 2,727,536 lbs. to 1,959,216 lbs. in 1918, increased again to 4,151,840 lbs. in 1919, a figure almost representing a return to normal conditions. The imports of bristles in 1917, which was 779,744 lbs., a figure considerably in excess of the highest previous record declined to 543,088 lbs. in 1918, but

increased again to 760,816 lbs. in 1919. The imports of curled hair fell from 13,201 cwts. in 1917, to 6,452 cwts. in 1918, but increased again to 10,019 cwts. in 1919, the latter figure being a considerable increase on the pre-war average which was about 7,000 cwts. The export of feathers increased from 18,262 cwts. in 1917 to 19,262 cwts. in 1918; but fell again to 17,869 cwts. in 1919, the average of recent years being practically the same as the pre-war level. Hides and skins, which reached a maximum export of 243,890 cwts. in the year 1914 as compared with a pre-war average of just over 200,000 cwts., fell to 170,470 cwts. in 1917, increased in 1918 to 222,307 cwts, but fell again in 1919 to 208,374 cwts.

*Flax.*—The imports of flax which in pre-war times averaged almost 40,000 tons had declined in 1917 to 28,735 tons to 6,442 tons in 1918, but showed a slight recovery to 9,592 tons in 1919. Exports of flax which reached a maximum of 5,131 tons in 1915 decreased to 2,971 tons in 1917, to 614 tons in 1918, but rose again to 1,765 tons in 1919.

*Other Textile Raw Materials.*—Imports of raw cotton which in 1912, 1913 and 1914 averaged 300,000 cwts. fell to 50,062 cwts. in 1917, to 16,220 cwts. in 1918, but increased in 1919 to 33,180 cwts. Re-exports of raw cotton, which were very large before the war had fallen as low as 9,898 cwts. in 1919. Imports of tow and codilla which averaged about 6,000 tons, per annum before the war amounted to 10,005 tons in 1917, the highest figure recorded; fell to 4,034 tons in 1918, and to 2,362 tons in 1919. Imports of hemp increased from 20,920 tons in 1917, to 22,271 tons in 1918, the largest figure recorded, but decreased in 1919 to 15,016 tons, a figure which was still slightly higher than the average of normal years. Imports of cotton waste which averaged less than 2,000,000 lbs. per annum before the war had increased to 2,406,320 lbs. in 1917 and reached a maximum of 2,573,424 lbs. in 1918, but decreased to 1,436,064 lbs. in 1919. Exports of waste (flax, hemp and tow) in 1917 amounted to 230,566 cwts. the largest export on record, fell to 209,422 cwts. in 1918 and to 138,354 cwts. in 1919; exports of rags increased from 9,805 tons in 1917, to 10,573 in 1918, a record figure, but decreased to 6,117 tons in 1919, representing normal pre-war exports.

*Other Materials.*—Imports of flax seed increased from 140,558 cwts. in 1917, to 155,428 cwts. in 1918, and to 177,674 cwts. in 1919, the highest figure recorded, and an increase of practically 50 per cent. on the pre-war level. The imports of wood pulp, which had fallen to the low figure of 4,229 tons in 1917 increased to 7,212 tons in 1918 and to 10,334 tons in 1919, or almost to the level of normal years. Exports of plants and bulbs declined from a pre-war average of more than 8,000 cwts. to 4,880 cwts. in 1917, dropped again to 3,726 cwts. in 1918, but increased in 1919 to 3,959 cwts.

## III.—MANUFACTURED GOODS.

Before dealing with the trade in this group of articles it should be stated that while the records of the trade in the two previous groups are on an unsatisfactory voluntary basis, the records for this group are extremely unsatisfactory. It is with regard to this group that the necessity for compulsory returns is most urgent.

In the following table, which shows the Irish trade in manufactured goods, the values are expressed to the nearest thousand pounds :—

IRISH TRADE IN MANUFACTURED GOODS.

† Value of exports greater than value of imports.

It will be observed that in each year from 1904 to 1916 the value of the imports of manufactured goods was substantially greater than the exports, but in 1917 and 1918 the difference between the values of imports and exports was only very slight. The manufactured goods imported in 1919 increased in price from 1904 to 1919 by 245 per cent., while the manufactured goods exported in 1919 increased in price from 1904 to 1919 by 344 per cent.

From 1917 to 1919 the volume of imports of manufactured goods as measured at 1904 prices decreased by 7.1 per cent., and the

volume of manufactured goods exported decreased by 26 per cent. The following table gives some details of these changes :—

## MANUFACTURED GOODS AT 1904 PRICES.

|  | IMPORTS.                   |                            |                            | EXPORTS.                   |                            |                            |

**Yarns.**—Imports of cotton yarn which averaged about 14,000,000 lbs. in the years 1909-13 increased to a maximum of 28,283,472 lbs. in 1916 but fell again to 23,829,008 lbs. in 1917, to 23,472,288 lbs. in 1918, and to 15,677,088 lbs. in 1919. Imports of linen yarn which reached the high maximum in 1912 of 26,737,424 lbs., dropped to 4,294,864 lbs. in 1917, to 3,850,672 lbs. in 1918, and to 2,466,128 lbs. in 1919. The exports of linen yarn remained fairly steady until 1917 amounting to 24,014,480 lbs. in that year compared with 24,713,696 lbs. in 1910, the largest figure recorded; there was, however, a very great decrease to 7,989,408 lbs. in 1918 but an increase again in 1919 to 14,272,008 lbs. Imports of thread which averaged about 1,500,000 lbs. in the five years 1909-13, fell to 1,040,928 lbs. in 1918 and to 760,032 lbs. in 1919, while the exports of thread which reached a maximum of 5,743,808 lbs. in 1915 remained fairly steady in 1916 and 1917, fell to 3,524,864 lbs. in 1918 and increased again to 3,778,320 lbs. in 1919. Imports of jute yarn which amounted to 2,775,472 lbs. in 1913—the highest figure ever recorded—fell to 2,132,920 lbs. in 1917, to 1,672,944 lbs. in 1918, and to 775,600 lbs. in 1919, the latter figure being about half a normal pre-war import. Exports of rope, cordage and twine amounted to 292,796 cwts. in 1917—the highest figure ever recorded—fell slightly to 278,788 cwts. in 1918 and to 225,223 cwts. in 1919, or about the equivalent of the normal pre-war export.

*Piece Goods, Drapery, etc.*—The decrease in the imports of this group was due to the falling off in the imports of cotton goods, woollen goods, and "Drapery." The imports of cotton goods which reached a record figure of 549,582 cwts. in 1916, fell to 383,256 cwts. in 1919; woollen goods fell from 97,805 cwts. in 1918—a record figure—to 52,916 cwts. in 1919, a figure much the same as the pre-war average, and "drapery" from 173,541 cwts. in 1917 to 118,491 cwts. in 1919, a figure somewhat less than half the pre-war average. The decrease in the exports of this group was principally due to the smaller shipments of linen goods which decreased from 1,048,958 cwts. in 1917 to 926,823 cwts. in 1918, and to 600,162 cwts. in 1919, the latter figure being roughly equal to one-half the average pre-war export.

*Leather Goods and India Rubber Goods.*—The imports of leather which averaged about 70,000 cwts. in normal years fell to 51,208 cwts. in 1917, to 49,823 cwts. in 1918, but increased again to 71,137 cwts. in 1919. The imports of boots and shoes which had dropped to 130,150 cwts. in 1917, increased to 153,286 cwts. in 1918 and to 156,066 cwts. in 1919, the latter figure approximating closely to normal pre-war imports. Imports of india rubber goods increased steadily before and during the war period and in 1919 amounted to 37,557 cwts., a quantity double the pre-war average.

*Metal Castings.*—Most of the decline in the imports of this group was due to a decrease in the imports of "Steel," which fell from an average of over 70,000 tons in the years 1909-13, to 60,175 tons in 1917, to 19,249 tons in 1918, and to 8,364 tons in 1919. On the other hand, the imports of bar and wrought iron, although falling from a pre-war average of over 60,000 tons to 41,508 tons in 1917, increased to 73,682 tons in 1918 and to 85,873 tons in 1919—the highest import on record. Imports of plates and sheets which averaged about 30,000 tons from 1909 to 1913, fell to 28,589 tons in 1917, but increased in 1918 to the record figure of 84,110 tons, falling again in 1919 to 75,063 tons. Imports of bolts, rivets, and nuts were much the same in 1919 as in 1918 and slightly above the pre-war average. Gutters, pipes, etc., however, decreased from an average of 45,000 cwts in 1909-13 to 9,520 cwts in 1917 and although there was an increase to 11,588 cwts in 1918, fell again in 1919 to 9,600 cwts.

*Machinery, Ships, etc.*—The increase in the value of the imports of this group in 1919 is mostly due to an increase in the estimated value of motor cars imported, from £100,000 in 1917, to £114,000 in 1918, and to £895,000 in 1919. Imports of machinery described as "Agricultural" reached a maximum of 3,351 tons in 1917—a figure double the pre-war import—but fell in 1918 to 1,939 tons, and to 1,421 tons in 1919. Imports of agricultural implements also reached a maximum in 1917, 172,771 cwts. being imported in that year—a quantity more than twice the pre-war average, but in 1918

there was a decline to 135,008 cwts., and to 105,568 cwts. in 1919, the latter figure being still well above the pre-war average. Imports of machinery described as "textile" fell from a pre-war average of about 800 tons to 667 tons in 1917, to 597 tons in 1918, but increased to 739 tons in 1919. The imports of "machinery unclassified" which were about 23,000 tons in pre-war years, fell to 18,243 tons in 1917, increased to 23,318 tons in 1918, and reached in 1919 the record figure of 28,887 tons. Exports of "machinery unclassified" which amounted to a pre-war average of 11,000 tons annually, decreased slightly to 10,444 tons and 10,732 tons in 1917 and 1918 respectively, but increased in 1919 to the record figure of 15,852 tons. Comparing 1917 with 1918 or 1919 there was but little change in the value of the exports of steam vessels estimated at 1904 prices.

*Wooden Manufactures.*—Most of the increase in the imports of this group in 1919 was due to increased imports of furniture, which, after falling from a pre-war average of about 130,000 cwts. to 54,924 cwts. in 1917, and to 53,950 cwts. in 1918, rose to 102,289 cwts. in 1919. The exports of furniture which averaged about 45,000 cwts. in the five years prior to the war, fell to 29,791 cwts. in 1917, increased to 30,304 cwts. in 1918, and to 68,763 cwts. in 1919, the highest export recorded. The exports of wooden manufactures which only amounted to an average of about 5,000 cwts. in the five pre-war years, steadily increased during the war period, amounting to 129,652 cwts. in 1917 and to 324,978 cwts. in 1918, but falling again to 49,818 cwts. in 1919. These abnormal war figures were almost entirely due to the export of munition boxes, which were classified as wooden manufactures.

*Paper, Stationery, etc.*—The imports of paper, which in the years 1910 to 1914 amounted to an annual average of more than 800,000 cwts. fell to 496,848 cwts. in 1917, to 377,922 cwts. in 1918, but increased in 1919 to 555,579 cwts. The exports (including re-exports) which averaged 300,000 cwts. in the years 1909-13, fell to 189,155 cwts. in 1917, to 132,085 cwts. in 1918, but increased to 161,477 cwts. in 1919.

*Bricks, Earthenware, etc.*—The imports of glass and glassware which amounted in pre-war years to an annual average of 200,000 cwts. fell to 79,187 cwts. in 1917, to 72,723 cwts. in 1918, but increased to 117,034 cwts. in 1919. Imports of bottles in the years 1911-14 averaged 425,000 cwts., fell to 194,616 cwts. in 1917, to 165,410 cwts. in 1918, but increased to 215,238 cwts. in 1919. Imports of fireclay bricks declined from a pre-war average of 300,000 cwts. to 193,928 cwts. in 1917, increased to 252,652 cwts. in 1918, but fell to 146,346 cwts. in 1919.

*Soap, Oils, etc.*—Imports of starch decreased from a pre-war average of over 60,000 cwts. to 40,461 cwts. in 1917, to 24,446 cwts. in 1918, but increased to 40,825 cwts. in 1919; candles, from an average import of 75,000 cwts. in the five years 1909-13 fell to 63,602

cwts. in 1917, to 53,392 cwts. in 1918, but increased to 58,576 cwts. in 1919; matches fell from about 45,000 cwts in the same period to 25,166 cwts. in 1917 and to 1,413 cwts. in 1918, but increased to 34,561 cwts. in 1919; paraffin shale fell from a pre-war average of 40,000 cwts. to 27,132 cwts. in 1917, increasing to 29,958 cwts. in 1918, and to 43,071 cwts. in 1919; sizing which reached a maximum of 27,361 cwts. in 1913 fell to 18,282 cwts. in 1917, to 16,655 cwts. in 1918, but increased to 17,563 cwts. in 1919. The imports of motor spirit which steadily increased from 166,952 gallons in 1905 to 3,714,746 gallons in 1915, decreased to 2,949,102 gallons in 1917, but increased again to 3,433,752 gallons in 1918, and to 5,463,050 in 1919, a much greater figure than any previously recorded. The pre-war average import of about 17,000,000 gallons of petroleum and paraffin oil was maintained on much the same level up to 1918 but fell in 1919 to 13,820,512 gallons. The decrease in the exports of this group was due to the falling off in shipments of Industrial Spirit from 11,152,112 proof gallons in 1917 to 8,646,690 proof gallons in 1918, to 1,718,101 proof gallons in 1919. There was a corresponding increase in the exports of potable spirits, an increase which is not credited to the group of commodities dealt with at this stage.

*Chemicals, Fertilizers, etc.*—Imports of copper sulphate which averaged just over 3,000 tons in the years 1909-13 increased to 5,792 tons in 1917, fell slightly in 1918 to 5,682 tons, and in 1919 dropped to 2,688 tons. Imports of soda bicarbonate, which amounted to 63,215 cwts. in 1913, the highest pre-war figure recorded, increased to 108,420 cwts. in 1917, to 119,362 cwts. in 1918, but fell to 86,643 cwts. in 1919. The imports of basic slag which reached a pre-war maximum of 33,665 tons in 1909, rose to 46,191 tons in 1917, to 58,493 tons in 1918, but decreased to 48,772 tons in 1919; imports of soda nitrate increased from a pre-war average of about 5,000 tons to 13,223 tons, in 1917, the largest import recorded, but decreased to 8,284 tons in 1918 and to 2,177 tons in 1919; imports of sulphate of ammonia increased from a pre-war record of 4,289 tons in 1912 to 20,873 tons in 1917, to 25,224 tons in 1918, and to 34,027 tons in 1919; imports of superphosphate which reached a pre-war maximum of 28,575 tons, in 1913 fell to 3,067 tons in 1917, to 1,450 tons in 1918, but increased to 14,910 tons in 1919. Imports of phosphate rock, which decreased from a maximum of 116,587 tons in 1914, to 62,557 tons in 1917, increased to 106,578 tons in 1918, and fell again to 91,367 tons in 1919, a figure about equal to the pre-war average. Exports of alumina, which had steadily increased in pre-war years from 67,955 cwts in 1907, to 314,632 cwts in 1913, further increased to 389,747 cwts in 1917, but fell to 342,930 cwts. in 1918 and to 165,670 cwts in 1919. Exports of fertilizers, which amounted in pre-war years to an average of about 25,000 tons, fell to 17,178 tons in 1917, to 14,520 tons in 1918, and to 4,614 tons in 1919.

The foregoing analysis indicates briefly the extent and character of Irish trade. With regard to the question of the source or country of origin of the imports and the final destination of the exports as stated in previous Reports, the existing returns furnish little information. The trade which passes directly between Ireland and colonial and foreign countries is known, and the more important details as regards this trade at the chief ports in Ireland are presented annually by the Customs and Excise Department in their Statement of the Trade of the United Kingdom. The direct imports of foreign and colonial goods into Ireland during 1919 amounted to a value of £26,341,725, whereas the direct exports amounted to only £1,936,710. But as regards the indirect colonial and foreign trade of Ireland which passes to and from the Irish ports *via* Great Britain, there are at present no means of distinguishing this from the colonial and foreign trade of Great Britain. Consequently the total trade of Ireland with countries outside of Great Britain cannot at present be ascertained.

The imports into Ireland per head of population according to the present returns, amount to £36 4s. 8d., and the exports per head to £40 3s. 9d.; or if the estimated value of re-exports is excluded, the imports amount to a value of £35 4s. 4d. per head of population, and the exports to £39 3s. 5d. per head.

It is of interest to compare the value of the import and export trade per head of population of other countries with that of Ireland, and the following table shows the values for the year 1919 or latest year for which figures for all the countries are available:—

| Country.                      | POPULATION       |                      | TRADE. |                                    |                                    |                                 |                                 |
|-------------------------------|------------------|----------------------|--------|------------------------------------|------------------------------------|---------------------------------|---------------------------------|
|                               | Date of Estimate | Estimated Population | Year   | Total Imports for Home Consumption | Total Exports of Domestic Produce. | Imports per head of Population. | Exports per head of Population. |
|                               |                  |                      |        | 1,000 £s.                          | 1,000 £s.                          | £ s. d.                         | £ s. d.                         |
| France .. ..                  | 1918             | 26,500,000           | 1919   | 1,191,141                          | 848,527                            | 32 12 8                         | 9 10 11                         |

\* Excluding re-exports estimated at £4,481,000.

As has been pointed out in former reports, these figures indicate the wide difference which there is in the extent of foreign trade of different countries as measured per head of population. In some States, especially those of wide area and varied climatic conditions, the extent of foreign trade in proportion to the total production of the country is small. In all such cases increase or decrease in imports or exports is a very subordinate factor in the industrial progress of the country, and the growth of wealth depends chiefly on internal development and internal trade, and not on the exchange of commodities with other nations. The larger the foreign or external trade of a country is in proportion to its internal trade, the greater is the importance of having as full and accurate as possible a record of this external or foreign trade. It is accordingly of the greatest importance to have as full and reliable a record as possible of the external trade of Ireland, but as has been repeatedly pointed out in previous Reports, the present records of this trade are far from being as accurate and as detailed as is desirable.

In conclusion, I desire to acknowledge the assistance given, by the Harbour Authorities of Ireland, the Railway and Shipping Companies, and by many individual importers and exporters, in furnishing information for this Report. I am also specially indebted to the Principal of the Statistical Office of the Customs and Excise Department for information which he has kindly furnished.

I am, Sir

Your obedient servant,

JOHN HOOPER,

*Superintendent of Statistics and Intelligence Branch.*

DEPARTMENT OF AGRICULTURE AND

TECHNICAL INSTRUCTION FOR IRELAND.

DUBLIN, 21st December, 1920.

## TABLES.

## IMPORTS.

TABLE I.—A Summary of the IMPORTS into Ireland during each of the years 1915 to 1919.

|  | 1915.             | 1916.              | 1917.              | 1918.              | 1919.              |
|--|-------------------|--------------------|--------------------|--------------------|--------------------|
|  | £                 | £                  | £                  | £                  | £                  |
| <b>I. Farm Produce, Food and Drink</b>                               |                   |                    |                    |                    |                    |
| <b>Stuffs—</b>   |                   |                    |                    |                    |                    |
| (a.) Live Stock .. .. .  | 439,427           | 517,555            | 445,020            | 399,632            | 442,711            |

# INDEX TO THE TABLES OF IMPORTS AND EXPORTS AT IRISH PORTS.

\*.\*The numbers refer to the marginal numbers printed in the Tables and not to the pages.

The same index numbers are used for the Tables for the year 1919 and the Comparative Tables for 1918 and 1919.

\*. \*The numbers refer to the marginal numbers printed in the Tables and not to the pages.

The same index numbers are used for the Tables for the year 1919 and the Comparative Tables for 1918 and 1919.
